

*****The information below is subject to change until CBE team reviews and confirms agenda*****

Purpose: EPA Pacific Southwest Superfund and Emergency Management Division (SEMD) Director Mike Montgomery will be visiting Los Angeles on June 22. He wants to meet with CBE regarding ongoing work concerning Central Metal, and concerning EPA's discussions with the State of California about what role EPA may play in the listing of Exide on the National Priorities List.

Date: Wednesday June 22, 2022

Time: TBD- Proposed time was 10:30 but legal asked to do 9:30. Chip (EPA) will try to move DTSC meeting happening 9-10 to 8-9 to help accommodate time for us.

Where: In-person, Benito Juarez Park (5515 Maywood Avenue, Maywood, CA 90270) and near Central Metal Site (8201 Santa Fe Ave, Huntington Park, CA 90255) in Walnut Park. The location is TBD- potentially outside member's home.

Who: CBE Organizers, legal folks, some members + EPA from SF (Mike M.- New Division Director, Eugenia C.- Site Assessment Manager, & Matt M.)

TENTATIVE AGENDA

Meet in the city of Maywood at Bentito Juarez Park 10AM

10-10:15 Intros

- Quick Check-in: Name/pronouns, Position, & Community
- Rossmery: Quickly review purpose of meeting
 - Have Mike do a quick intro + context on his role

10:15- 10:45 Exide Overview

- **(CBE staff)** Exide background: Staff member give quick overview + hear from a member
- **(EPA staff)** Review NPL Listing Process
 - EPA will send slide on NPL listing process ahead of time and will provide a printed copy the day of in English and Spanish (Chip follow up with EPA)
 - **EPA Priority Question: If the state asks federal EPA to take over Exide what might that look like? What is the process for listing and what does that look like?**
 - Two agencies will work together, state gets resources of federal government provided for communities
 - How do we maintain consistent communication + build relationship? (Identifying point people between CBE and EPA)
